## **SEQUESTERED SOLUTIONS ALASKA, LLC. SURPASSES 2 MILLION MINUTES OF CONTINUOUS UPTIME**

ANCHORAGE, ALASKA, AUGUST 26, 2009, SEQUESTERED SOLUTIONS ALASKA, LLC. today announced that it has surpassed 2 million minutes of uninterrupted service to its clients. As of August 12, 2009, SSA has delivered 2,008,000 minutes, (1,395 days or 33,480 hours) of uninterrupted service with 0.0 minutes of unscheduled downtime.

“SSA is proud to be a part of this exclusive worldwide group of MSPs. Using defined processes and our patent-pending BrainyRack™, SSA has delivered over 2 million minutes of equipment availability to its clients,” said Sam Morales, SSA CEO. Another contributing factor in achieving this milestone is SSA’s use of industry-recommended operational procedures, including project management and change-control, to enhance operations.

### **About Sequestered Solutions Alaska, LLC**

SSA delivers service to clients with its exclusive patent pending BrainyRack™ that monitors all of internal essential functions and is capable of handling multiple types of power in and power out, turning dirty power to clean performance. The BrainyRack™ has no inherent Single Point of Failure and can easily accommodate 33 Rack Units of equipment.

~ MORE ~

Sequestered Solutions recently began offering DataCenter Vault™, its new Software as a Service product that provides secure on-line data storage and Continuous Data Protection.
